Instructions:

Print this sheet. You as a member are limited to using 2 passes (Coupons) per month. If you have a larger group or a large influx of visitors, talk with an officer or director to get permission for additional pass usage.

The purpose of the passes is for members to bring in family, friends, or associates who are interested in the space and show an interest in joining. The pass provides an opportunity to checkout and use the space before joining. You may also use the pass to bring in a helper on your project with limited tool access.
